STATE OF WISCONSIN PERSONNEL COMMISSION \* \* \* \* \* \* \* \* \* \* \* \* \* \* \* ÷ \* DONNA R. McGREW. \* \* Appellant, \* \* v. DECISION President, UNIVERSITY OF \* AND WISCONSIN, and Administrator, \* ORDER DIVISION OF PERSONNEL, \* \* Respondents. \* \* Case No. 81-443-PC \* \* \* \* \* \* \* \* \* \* \* \* \* \* \* \*

This matter is before the Commission as an appeal from respondent's decision denying the reclassification of the appellant's position. At the prehearing conference, the parties agreed to the following issue for hearing:

Whether the respondent erred in denying appellant's request for reclassification. Subissue: Whether appellant's position is more properly classified as Program Assistant 2 or 3.

#### FINDINGS OF FACT

1. At all times relevant to this appeal, the appellant has been employed in the Office of Academic Affairs of the University of Wisconsin System Administration.

2. The Office of Academic Affairs is responsible for 1) the oversight of the thirteen universities and fourteen two-year centers as well as the UW-Extension that comprise the UW System; 2) the review of new degree programs that go to the Board of Regents for approval; 3) the creation of policies regarding student and faculty affairs; and 4) the

1 .

provision of a series of special projects or programs relating to academic functions within the UW System.

3. The appellant's position is accurately described in her position description dated June 16, 1981, a copy of which is attached hereto and incorporated by reference as if fully set forth as a part of this finding.

4. The class descriptions for the Program Assistant (PA) 2 and 3 classifications provide as follows:

## PROGRAM ASSISTANT 2

(PR2-07)

This is work of moderate difficulty providing program support assistance to supervisory, professional or administrative staff. Positions are allocated to this class on the basis of the degree of programmatic involvement, delegated authority to act on behalf of the program head, level and degree of independence exercised, and scope and impact of decisions involved. Positions allocated to this level are distinguished from the Program Assistant 1 level based on the following criteria: (1) the defined program area for which this level is accountable is greater in scope and complexity; (2) the impact of decisions made at this level is greater in terms of the scope of the policies and procedures that are affected; (3) the nature of the program area presents differing situations requiring a search for solutions from a variety of alternatives; and (4) the procedures and precedents which govern the program area are somewhat diversified rather than clearly established. Work is performed under general supervision.

#### PROGRAM ASSISTANT 3

(PR2-08)

This is paraprofessional work of moderate difficulty providing a wide variety of program support assistance to supervisory, professional or administrative staff. Positions are delegated authority to exercise judgment and decision making along program lines that are governed by a variety of complex rules and regulations. Independence of action and impact across program lines is significant at this level. Positions at this level devote more time to administration and coordination of program activities than to the actual performance of clerical tasks. Work is performed under general supervision.

5. The term "paraprofessional" is defined within the Program Assistant Position Standard as follows:

> A type of work closely relating to and resembling professional level work, with a more limited scope of functions, decision-making and overall accountability. A paraprofessional position may have responsibility for segments of professional level functions, but is not responsible for the full range and scope of functions expected of a professional position.

6. An analysis of the eleven individual accomplishments described in the appellant's position description in comparison to the accomplishments normally included within classifications outside of the Program Assistant series indicates that the functions performed by the appellant are not of the type that should be classified at the pay range 2-08 level.

7. A comparison of the appellant's position with other positions currently classified within the Program Assistant series indicates that the appellant's position should not be reclassified to the PA 3 level. Specifically, the following positions are relevant comparables:

> A. PA-2 position also within Office of Academic Affairs filled by Elizabeth U'Ren. The U'Ren position summary reads:

 Serve as an administrative assistant to the following UW System Committees: UW System Advisory Committee on Minority Student Affairs, Basic Skills Council, Regional Testing Board, Extended Degree Directors Group, Search & Screen Committee for Associate Vice President for Academic Affairs. 2) Handle administrative work flow, 3) Coordinate telephone communications, 4) Communications, 5) Production of typed copy.

B. A PA-1 position in the Arts and Sciences Outreach office,
UW-Eau Claire, filled by Susan Madden. The Madden position
summary reads:

Clerical duties related to Assistant to the Dean; coordination/development of Outreach programs; coordination/ development of course publicity; management of finances, financial records, and accounts. ٠

C. A PA-1 position in the Department of Business and Management, UW-Extension, filled by Linda Zielinski. The majority of Ms. Zielinski's duties relate to the planning, scheduling and preparation of advertising and program materials for programs/courses offered by her development. Ms. Zielinski also spends 30% of her time providing secretarial assistance.

7. The appellant's position is more appropriately classified at the PA-2 level rather than the PA-3 level.

# CONCLUSIONS OF LAW

This appeal is properly before the Commission pursuant to
\$230.44(1)(b), Stats.

2. The appellant has the burden of proving that the respondents erred in denying the request for reclassification of her position, and that it is more properly classified at the Program Assistant 3 level rather than the Program Assistant 2 level.

3. The appellant has not sustained her burden.

4. The respondents did not err in denying the request for reclassification of appellant's position and it is more properly classified as Program Assistant 2 rather than Program Assistant 3.

# OPINION

All three of the appellant's witnesses, including the appellant herself, testified that the position description dated June 16, 1981 was an accurate description of the appellant's responsibilities at that time. However, the appellant argued that Accomplishment #2, which relates to the production of typed copy and which takes up 40% of the appellant's time, actually is for the most part an administrative rather than a clerical function. This argument does not reflect the appellant's own testimony to

the effect that Accomplishment #2 involves typing and proofing copy and that those allegedly "administrative" aspects of Accomplishment #2 can actually be found within the other ten accomplishments listed on her position description.

In a recent decision, the Commission commented on the specificity of the position standards for the Program Assistance series:

> The Program Assistant series position description uses general language in the class descriptions. As was brought out in the testimony, many of the functions of the appellant's position, viewed in the abstract, could be found within any of the four levels of the series. In order to properly classify such a position, it is important to draw comparisons with other positions. McIntosh v. DP & UW, Case No. 81-442-PC (8/5/82)

In the instant case, there is nothing within the PA-2 class description that would act to exclude the appellant's positions. The respondent offered two separate methods of analysis in order to determine the appellant's proper classification given the general nature of the class description. The first method of analysis, "costing out" the appellant's duties based on classifications outside of the PA series, indicated that the appellant's position should not be classified at a pay range 2-08 level. The respondent also compared the appellant's position to a series of PA 1 and 2 positions throughout the state. The comparable positions included sufficiently similar responsibilities so that an accurate comparison could be made. The results of the comparison indicated that the appellant's positions should not be reclassified above the PA 2 level. It should also be noted that no PA 3 position descriptions were placed into the record in this matter by either party. The appellant merely argued that her position was different than the positions referred to by the

respondent as comparables. However, the appellant has the burden of proof in this matter and given the indefinite nature of the PA class descriptions, the appellant should have submitted her own PA 3 comparables.

# MOTION TO DISMISS

In a letter prepared after the posthearing briefing schedule in this matter, had been completed but before a proposed decision had been issued, the respondents moved for dismissal, stating in part:

Since submission of the briefs in this matter, appellant has resigned her position in Academic Affairs, and is now employed at the University Clinical Health Center.

Respondent contends that since appellant has resigned her position, the relief sought, if granted would have no practical effect, and therefore the case is now moot. An order by the Commission, rejecting and modifying the University's denial of appellant's request for reclassification can have no practical effect given the change in appellant's employment status, unless accompanied by an order for back pay. The Commission is without authority to issue such an order. The Dane County Circuit Court held, in DER v. Wisconsin PC (Cady) 79-CV-5099 (7/24/81) that where the Commission rejects a reclassification denial, it lacks authority to require retroactive salary payment as a remedy. In the absence of authority to order back pay, the relief sought, even if granted, would have no practical effect upon the parties. Given the fact and position-specific nature of review in reclassification cases, and the fact that appellant is no longer employed in the position in which she sought reclassfication, a decision in the abstract would not yield a finding that would serve any instructive or remedial purpose.

The question of whether or not the Commission has the authority to issue an order requiring back pay in a reclassification appeal is not determinative as far as the issue of relief in the present case. The Commission must assume that the respondent agencies are aware of and comply with the requirements set out in the Wisconsin Personnel Manual as developed by the Division of Personnel. Pursuant to Ch. 335 (Attachment #2) of that manual:

> Both delegated and non-delegated reclassification actions will be made effective at the start of the second pay period following effective receipt of the reclassification request at a level within the agency that has the authority to approve the request (delegated actions) or the authority to recommend the action directly to the State Division of Personnel for final approval (nondelegated actions).

This provision would appear to apply to all reclassification requests including those instances where an appeal was taken to the Commission which then rejected the agency's decision. In light of the above provision, the respondent's motion must be denied.

#### ORDER

The respondent's reclassification decision is affirmed and this matter is dismissed.

Dated: Unuary 7
